

OrganicLife®

LAYER PELLETS

Product Description

OrganicLife® Layer Pellets is a complete, nutritionally balanced diet designed to be fed to laying chickens, ducks and geese from the time of first egg.

Features and Benefits

Certified Organic by Quality Assurance International (QAI) - *A global leader in organic certification.*

High Level of Calcium - *For the production of quality eggs and harder shells.*

Guaranteed Levels of Lysine and Methionine - *To achieve maximum egg production and feed efficiency.*

Added Vitamin and Minerals - *Provides a supplemental source to help guard against deficiencies and maintain optimal health and disease resistance.*

Available in a 50-lb Bag.

Suggested Feeding Recommendations

Feed **ORGANICLIFE® LAYER PELLETS** as the sole diet to laying hens, ducks and geese from the time of first egg.

For laying hens in a commercial environment, provide at least 24 feet of hopper space per 100 birds (two 6 ft hoppers). Fill hoppers with fresh feed once per day. Periodically, make them clean it up.

The suggested feeding program above is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the birds' requirements.
