DYNASTY® PERFORMANCE HORSE FEEDS

The look in their eye says it all... the focus, the determination, the will to win.

Supporting this focus with precisely balanced nutrition and proper strength conditioning, horses can achieve remarkable performance.

No matter what the goal... successful trail riding, top competition, progressive training, developing a young athlete or a lifetime of good health, superior nutrition is a key factor in achieving that goal. The body needs nutrients to grow and develop, to progress to gain strength and stamina, and to maintain tissue integrity. The right nutritional program will help equine athletes improve performance and prevent body breakdown when engaging in athletic activities. Dynasty Horse Feeds will provide horses with that nutritional edge.

Dynasty horse feeds start with pure and natural compounds. High-quality ingredients are specifically balanced and formulated in a variety of products to provide optimum nutrition for every life stage and every activity or performance level. Inspired by years of research and dedication, Dynasty provides essential nutrients for:

- Endurance and Stamina
- Strength and Focus
- Growth and Development
- Condition and Bloom
- Health, Wellness and Longevity

Features and Benefits of DYNASTY Horse Feeds:

- **Muscle** – Essential amino acids like lysine, methionine and threonine ensure that quality protein is available for continuous growth and rebuilding of muscle tissue.
- **Fuel** – High fat from vegetable oil increases energy density and efficiency for sustained performance and endurance. Incorporating oil helps reduce the risk of starch overload while maintaining desired calorie level for optimum weight and body condition.
- **Immune System** – An Advanced Antioxidant Package consisting of stable vitamins and biologically available trace minerals help maximize the immune system response, maintaining optimal health and metabolism.
- **Fiber** – Dietary fiber supports healthy hind-gut fermentation while providing extra calories in a safe and natural form.
- **Digestive Tract** – Yeast culture along with a consistent fixed component formula aids in maintaining a healthy and stable digestive tract environment.
- **Joint** – Stable vitamins and a precisely balanced package of organic trace mineral complexes help promote joint and bone health and strength.
- **Skin, Hair, Hoof** – Quality protein, B-vitamins and organic trace mineral complexes help promote healthy skin, hair coat and hoof condition, enhancing overall appearance.

KENT NUTRITION GROUP

DYNASTY PRODUCTS TO MEET EVERY NEED:

PELLETS

- **Dynasty Show 12/6 Pellet** is formulated with a synergistic blend of calorie sources from fat, starch and digestible fiber to meet the diverse energy requirements for actively competing mature horses and pleasure-riding horses.
- **Dynasty Pro 14/6 Pellet** is formulated to meet the nutritional requirements for all life stages including growing horses, active performance horses, breeding stallions and pregnant/lactating mares. A blend of fat and fermentable fiber provides safe calories in a balanced diet for the professional equine operation.
- **Dynasty Grow 16/6 Pellet** is formulated to meet the demanding nutritional needs of lactating mares and young growing foals. Dynasty Grow contains an optimum balance of energy and fiber for safe grain feeding. It can also be fed to horses on low-protein hay or when extra shine and condition is desired.
- **Dynasty Senior 14/6 Pellet** is formulated with high fiber and added fat to meet the nutritional demands of mature and active senior horses. The high fiber diet supports healthy digestive activity while the added fat provides the extra calories needed to maintain desired body condition in aging horses.

TEXTURED

- **Dynasty Event 10/8 Textured** is formulated with a synergistic blend of calorie sources from fat, starch and digestible fiber to meet the energy requirements for actively competing mature horses and pleasure-riding horses fed good quality roughage. A nutritionally balanced diet with excellent acceptance and palatability.
- **Dynasty Show 12/8 Textured** is formulated with a synergistic blend of calorie sources from fat, starch and digestible fiber to meet the energy requirements for actively competing mature horses and pleasure-riding horses. A nutritionally balanced diet with excellent acceptance and palatability.
- **Dynasty Pro 14/8 Textured** is formulated with a synergistic blend of calorie sources from fat, starch and digestible fiber to meet the nutritional requirements for all life stages including growing horses, active performance horses, breeding stallions and pregnant/lactating mares. A high-quality, nutritionally balanced diet for the professional equine operation with excellent acceptance and palatability.

XT TEXTURED

- **Dynasty XT Show 12/10** is formulated with shredded beet pulp for active horses involved in a variety of competitive disciplines. Offers a safe and natural way to provide essential nutrition and calories to performance horses. It is also an ideal choice for horses with elevated caloric requirements such as hard-keepers, rescue horses & metabolically challenged senior horses.
- **Dynasty XT Pro 14/10** is formulated with shredded beet pulp and provides an ideal balance of protein, fat and fiber from low starch and sugar ingredients to meet the intense demands of horses at various life stages. Offers a safe & natural way to provide essential nutrition to growing horses, performance horses, gestating mares, breeding horses and senior horses.
- **Dynasty XT Grow 16/10** is formulated with shredded beet pulp and offers a safe and natural way to provide essential nutrition to lactating mares and young growing foals. It is also recommended for show horses on low-protein hay or when extra shine and condition is desired.
